ASHGATE

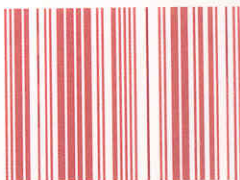

In this insightful book, Tareq Y. Ismael and Mustafa Aydin explore Turkey's role within a globalizing world, and as a new century unfolds, examine a nation at the crossroads of both time and space within the international political order. This volume discusses potential policies and their suspected implications for Turkey and its people in the 21st century. Chapters consider Turkey's policy history and prospects with Europe and the United States as well as regional concerns such as Greece, the Caucasus and Central Asia. Policy issues such as security, economic development and integration, as well as globalization and migration are discussed with positive alternatives outlined for Turkish policy-makers and the academics who examine them.
